

Oakley Green and Ultraframe

Our original glass conservatory started to look a bit dated after 11yrs. Originally installed by Oakley Green we have spent many an hour, summer and winter in what has become our favourite room.

The Ultraframe "LivinRoof" gave us a new and improved option to future proof our conservatory and add another all year round room to our property.

It was never going to make Channel 4s Grand Designs with Kevin McCloud, but Oakley Green's Mark and Josh have been so much better, helping us create our own personal Grand Design.

Mark and Josh arrived on the Thursday, weather forecast for the weekend was not good. Could a roof be dismantled, replaced and made water tight in 2 days?

Day 2

With the weather forecast still not in our favour, it's an early start and a full on day for the lads.

If you have an existing Oakley Green conservatory, this product is an excellent choice and the team know exactly what they dealing with.

Water tight as
the last few
panels are
fitted.
Smart and
clean, the
leaded effect
compliments
the existing
build superbly.

Stirling job, we can sleep easy the weekend and would you believe, It stayed dry!!!!!!!!!!!!!!.

Day 3/4

The external fit completed and the internal insulation and frame takes place.

This is really well designed from Ultraframe and starts to give us our first insight of the finished article.

The arrival of extra help from Tristan makes light work of the fit.

Steve the plasterer gives it the finish it deserved. Now we're talking.

Always mindful of the balance between light and warmth, Maurice and Steve the surveyor have done us proud. We really like the deep pelmets which will house the soft lighting.

Nothing stops for the World Cup !

We are nearing completion. Flooring finished by Tristan and Andy has made a lovely job of the lighting. Just the final touches before we are back in our favourite room. What a difference!!!

Big Thanks

Thanks to Maurice, Steve, Mark, Josh, Tristan, Steve and Andy. Throughout the project you have been a pleasure to meet and work with.

We highly recommend Oakley Green and the quality of the build and workmanship. The honesty and integrity in the advice and care taken at all times in our property.

We can relax all year round in our new conservatory, which compliments and feels part of the house.

Big thanks and regards, Steve & Sharon Foxhall
